

Letter of recommendation, Vivi Båvner

As manager of Leader Bergslagen I can highly recommend Vivi Båvner to any kind of work related to project management, both development, implementing and monitoring.

It has been a great joy to work with Vivi. She has very good social skills, is easygoing and professional and I can easily see her in any managerial role.

Vivi's environmental skills has also been of good use to us, as well as her ability to work with professional colleagues as well as young people in a way that makes everyone around her comfortable.

I wish Vivi the best of luck in coming career, and I am certain she will continue to perform brilliantly.
